PROFESSIONAL SUMMARY

- Blue Prism & JAVA Developer working at Kolkata in **IBM INDIA PRIVATE LIMITED**.
- B. Tech in Electronics & Communication Engineering, **specialized in Blue Prism Automation Development**.
- Undergone JAVA training of three months from Manipal, Bangalore.
- Undergone "Dot Net" training from Hewlett-Packard Pvt. Ltd.

CAREER OBJECTIVE

Seeking an opportunity to utilize my skills and abilities in the Industry as a software Engineer that offers me professional growth and Personal Satisfaction while being resourceful, innovative and flexible for the growth of the Organization.

To be able to contribute towards the success of the company, both as an individual and as a team member. And to grow, by learning and experiencing, as an individual and as a professional.

TECHNICAL SKILLS:

Specialized/Experienced in	Blue Prism Automation & JAVA Development at IBM
Programming Languages	Java, SQL, C#
Web Technologies	.NET & JavaScript
Platforms	Blue Prism, Eclipse, Visual Studio and Web Browsers.
Networking	MTA certified in Networking, Microsoft
Learning	UI Path and AI

PAST PROJECT DETAILS:

PROJECT NAME: BP ADAM Blue Prism Development Team(RPA)

Duration: 2 Years

Role	<i>Application Developer</i>
Organization	IBM India, Kolkata
Team Size	20
Platform	Blue Prism RPA Software
Automated Applications	SAP Logon & several IBM internal applications like IBM Notes etc.

Project Description: Creating efficient Bots by using Blue Prism Tools/ utility Or by creating custom Tool in Blue Prism <Using Code Stage> as per given requirements/Process Definition Document, which are capable of doing manual work with a high accuracy and time consumption may be less Or more compared to Human.

GitHub Link: <https://github.com/DevCrissCross>

FEW AUTOMATION DEVELOPMENTS:

1.ENDUR Error Files Check

Automation Platform	Blue Prism
Automated Application	SAP FICO
Work	Complete Development and Testing
Process Definition Doc	To Perform the Endur Error Files check based on the Errors received on daily basis to check the files to know the Error.

2. BATCH JOB Monitoring for Cancelled Jobs

Automation Platform	Blue Prism
Automated Application	SAP FICO
Work	<u>Maintenance</u> – Developed flexible Bot ruing schedule by using Periodicity.
Process Definition Doc	Automating Batch Job monitoring for Cancelled Jobs and communication to the functional Team

3. BATCH JOB Monitoring for Active Jobs

Automation Platform	Blue Prism
Automated Application	SAP FICO
Work	<u>Complete Development and Testing</u> : Long running active batch jobs duration to be compared with predefined batch job duration in excel as >> Compare the defined run time with long running jobs time, if run time exceeds then sending the job list to functional team via email.
Process Definition Doc	Automating the Batch Job monitoring for Active Jobs and communication to the functional Team

✓ Creating Custom Utilities: -

Custom utilities are created by using code stage, which are not provided with Blue Prism Or for repetitive tasks in Bot creation, by merging all release files to one.

Use: Utilities are defined as standard Business Objects and is being called in Process if required in Bot Developments, it essentially saves time and gives more stable and efficient conditions to the bot.

Purpose: it gives more flexibility to any bot, as if there is any future change in the automated applications, then only by changing the utilities, changes can be made directly in the production systems in less time without moving back release files to UAT/Quality.

Automation Platform	Blue Prism RPA
Utilities	Example: image copy/cut and paste in background by using Clipboard <Formats: JPEG, GIF, BITMAP, PNG etc.>, Excel Operations, background Email operations, Collection operations and many more.
Work	Doing hit and try and by using internet/ IBM resource creating utilities which are helpful to reduce total bot running time by using code stage and collection, minimizing frontend GUI operations.

SCHOLASTICS

B. Tech in Electronics & Communication Engineering discipline from Jawaharlal Nehru Technological University, Hyderabad.

Branch: Electronics & Communication Engineering.

Degree	University/Board	Year of Passing	Percentage
B. Tech	JNTU, Hyderabad	2011-15	71.0

TRAININGS:

- Certification on JAVA from Manipal.
- Core Java, Bluemix training from IBM
- 30 days Training on .Net with C# at HP Pvt. Ltd.
- MTA certified in Networking from Microsoft
- JAVA training in Druga Institute, Hyderabad
- Robot automation framework demo at IBM
- Natural Language Processing (NLP) with Python at IBM
- Demystifying HTML, CSS and JavaScript for L&K at IBM

RESPONSIBILITIES:

- ✓ Creating/developing utilities/application as per business requirements in C# & Java.
- ✓ Handling business process and resolving technical issues.
- ✓ Testing and deploying changes in production.
- ✓ Server maintenance and monitoring.
- ✓ Handling sudden issues/technical issues on server Or Application.
- ✓ Real time system monitoring & maintenance.
